

I strongly believe that in order to have a media that represents the views of all citizens, it requires that all citizens have equal access to the media. By putting media outlets into the hands of a chosen few, you are making a decisive statement about whose opinions will or will not be heard. i do not trust corporate america to be even handed in its portrayals of events that it stands to profit from. This sets a dangerous precedent, and I believe that the media needs to be put back into the hands of the people.
